

Trivia Dates

August 12th & 26th @ 6:30 PM

Upcoming Events

- 8/15 Food Truck Rodeo
- 8/24 Superintendent's Revenge
- 8/31 Sunrise Yoga
- 9/14 LGA Member/Guest
- 9/26 Food Truck Rodeo
- 10/5 MGA Member/Guest
- 10/12 LGA Five Club
- 11/9 Club Championship

Live Music In August 6-9 PM

- 2nd Brady Smith
- 9th Eddie Stonaker
- 16th Roadside Saviors
- 23rd Cotton Blue
- 30th Ev & Joe

Men's Member/Guest

Just a reminder that all members and guests will need to have a USGA Handicap to participate in the Men's Mem/Guest. There will be no exceptions made. If you or your partner currently do not have a handicap, it's not too late to start one. All members receive complimentary handicap service and it is only \$30 per calendar year for non members. They do not have to live in this area to keep their handicap with us.

Nautilus/Pool House

We are still working through the permitting process for the new pool and fitness building and are still anticipating beginning work at the beginning of October with a completion date sometime in April.

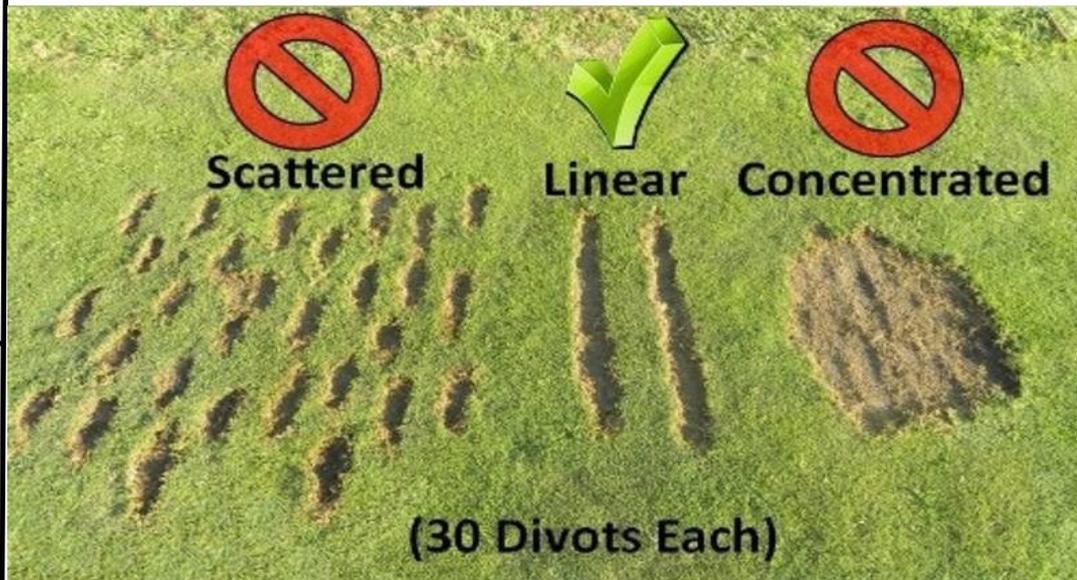

Driving Range Update

We are estimating opening up the grass hitting surface around August 21st. Until then, we will be using the new mats at the back of the range. Before we begin hitting off of the new grass, I would like to share an excerpt from a USGA article about course care:

*A **scattered divot pattern** removes the most amount of turf because a full divot is removed with every swing. Scattering divots results in the most turf loss and uses up the largest area of a tee stall. This forces the golf facility to rotate tee stalls most frequently and often results in an inefficient use of the tee.*

*A **concentrated divot pattern** removes all turf in a given area. While this approach does not necessarily result in a full-sized divot removed with every swing, by creating a large void in the turf canopy there is little opportunity for timely turf recovery.*

*The **linear divot pattern** involves placing each shot directly behind the previous divot. In so doing, a linear pattern is created and only a small amount of turf is removed with each swing. This can usually be done for 15 to 20 shots before moving sideways to create a new line of divots. So long as a minimum of 4 inches of live turf is preserved between strips of divots, the turf will recover quickly. Because this divot pattern removes the least amount of turf and promotes quick recovery, it is the preferred method.*

MGA One Day Mem/Mem or Mem/Guest - Results

FLIGHT 1

- 1st RJ Quillinan/CJ Rafferty
- 2nd Jeff Fuquay/Cam Wills
- 3rd T.A. Fulmer/Reed Johnson

FLIGHT 3

- 1st Michael Bowers/Andrew Reina
- 2nd Steve Thompson/L. Velasquez
- 3rd Ted Dudley/Don Ford

FLIGHT 3

- 1st Luis Thompson/Logan Salter
- 2nd David Weber/David Kane
- 3rd John Katsaras/George Vlahoglannis

FLIGHT 4

- 1st Bob Burns/Joe Muller
- 2nd Art Archambault/Ron Davis
- 3rd Rick Atkins/Charles Atkins
